

21. (G.CO.5) TRIANGLE ABC IS IN THE 2nd QUADRANT, REFLECT OVER THE x-axis, rotated 180 degrees

Label the reflection as $A'B'C'$
Label the rotation as $A''B''C''$

22. (G.CO.5) List the sequence of transformations necessary to map $\triangle ABC$ to $\triangle A'''B'''C'''$.

Transformation 1: _____

Transformation 2: _____

Transformation 3: _____
